Profile

I am a detail-oriented and driven third-year ICT Applications Development student at Cape Peninsula University of Technology. I am passionate about developing innovative, user-focused software solutions and thrive in collaborative environments. With strong leadership qualities and a keen interest in emerging technologies, I aim to contribute to meaningful digital transformation through impactful, real-world projects.

Education

Cape Peninsula University of Technology
Diploma in ICT Applications Development (3rd Year)
2023 – Present

Relevant Coursework:

- Database Design & Normalization
- System Software Development
- Web & Mobile Application Development
- Python Programming & Data Handling
- Project Management

Phomolong Secondary School
National Senior Certificate (NSC)
Completed: 2022

Skills

Technical Skills:

- Programming Languages: Java, JavaScript, Python, HTML, CSS
- Database Management: SQL, Normalization, ER Modeling
- Web Development: Responsive, user-friendly designs
- App Development: Desktop & Mobile systems (Java/Swing, Android)
- Tools: Git, MySQL, IntelliJ, VS Code

Soft Skills:

- Team collaboration and leadership

- Effective time management and planning
- Clear and proactive communication

Projects & Experience

Voting System Application (2023):

- Developed a GUI-based Java Swing application for voting
- Implemented backend logic with SQL integration
- Created the database schema and project timeline

Ambulance Tracking System (2024):

- Developed a system for tracking ambulance locations and statuses
- Collaborated with team members on system design and implementation
- Applied database management and real-time data concepts

Current Projects (2025):

- Planning and designing several key systems including:
 - SkillsSync – Employee Training Tracker (UML diagrams and system design phase)
 - MBD Management System for the South African Statistics Department (Planning and database schema design)
 - NannyAtYourService – SQL Module (Planning advanced SQL features)
 - Rapid Care System (UML and requirements gathering)

Group Project (2025):

- Collaborating with a team on a Baby Clothing System for the academic year
- Developing the system from initial requirements through design and implementation phases

Interests

- Web Development & Mobile Development
- Software Innovation and Emerging Tech
- Music and Film
